Aspendale Gardens Primary School

Our Approach

At Aspendale Gardens Primary School, staff and students work together to nurture a love of learning. We value the education of every student, as we stimulate and extend them to reach their full potential as individuals, members of our community and as global citizens.

Our aim is to provide an outstanding teaching and learning program designed around personalisation and inquiry learning. We are an authorised IB World School offering the Primary Years Programme (PYP). That makes us part of a global collective that shares a common philosophy and a strong commitment to high quality, international education for our students.

Our inclusive environment challenges and supports students to be the best that they can be. We ensure teaching and learning is a priority. A strong focus on positive, respectful and supportive relationships between all members of our school community is important to us and at the centre of everything we do.

It is our priority to develop a mutually supportive partnership between students, parents and the school. We realise that the development of self-esteem and confidence is fundamental to each student's personal, social and academic growth.

At Aspendale Gardens Primary School, students develop qualities that help them to become balanced, open-minded and independent. We are excited to offer a range of co-curricular activities to allow every student to experience a diverse and enriching education. Students are encouraged to be confident, resourceful and resilient individuals.

The PYP Learner Profile attributes, are more than a collection of impressive words, we live and breathe them every day. They are the foundation of the behaviours we expect of ourselves and the behaviours we instil in our students.

The following pages are a snapshot of the vibrant, friendly and inspiring learning environment we proudly create each and every day. We look forward to working in partnership with you and your child to create a positive, engaging and fun-filled educational experience.

Engaging to Learn

Aspendale Gardens Primary School implements the Primary Years Programme (PYP). This approach to learning focuses on inquiry and discovery which involves students formulating questions, using an array of methods to investigate the answers and provides opportunities to meaningfully reflect and consolidate their understandings. This encourages all of our students to explore authentic, real-life experiences and allows them to engage in deeper, higher order thinking. The consequences are powerful learning experiences that engage every student.

The PYP focusses on developing the whole child which includes their social, academic and emotional wellbeing. It develops personal values that provide children with the capacity to be internationally minded and to adapt and thrive in the global world of which they are a part. We believe this approach will set our students apart in a continuously changing world.

The PYP is transdisciplinary in nature, drawing individual disciplines (Maths, English, Science, etc.) together while maintaining the essence of each individual subject area. This results in a powerful mix of explicit teaching of curriculum content and an abundance of challenging, exciting and engaging educational experiences which make learning connections across all subject areas.

During each school year, our students explore six different units of inquiry, under the following transdisciplinary themes of global significance:

- Who we are
- Where we are in place and time
- How we express ourselves
- How the world works
- How we organize ourselves
- Sharing the planet

These themes are aligned to the Victorian Curriculum. We believe the PYP allows us to deliver the curriculum in a richer, more vibrant way that places your child at the centre of their learning and promotes their voice in the learning journey.

"The secret in education lies in respecting the student." **Ralph Waldo Emerson**

Enhancing Wellbeing

The emotional and physical wellbeing of our students is pivotal to their success at school and into their future lives as they become 21st century citizens. Physically and emotionally healthy students are happy, able to deal positively with life's challenges, experience a sense of connectedness with the school and others and are well placed to develop into well-balanced and successful young adults.

Our **whole school approach to student wellbeing** places specific importance on the development of the PYP Learner Profile attributes. We are developing students to be:

- Balanced
- Caring
- Communicators
- Inquirers
- Knowledgeable
- Open-Minded
- Principled
- Reflective
- Courageous
- Thinkers

The Learner Profile attributes are supported by our school attitudes. These provide a platform for life-long learning and are interwoven into daily school life. They ensure that all learning is engaging, relevant, challenging and significant.

Our school attitudes are:

- Appreciation
- Commitment
- Confidence
- Cooperation
- Creativity
- Curiosity
- Empathy
- Enthusiasm
- Independence
- Integrity
- Resilience
- Respect
- Tolerance

In conjunction with these attributes and attitudes, Aspendale Gardens Primary School uses restorative practices to promote positive behaviour and facilitate dialogue and discussion to right any wrongs in the schoolyard.

Supportive Environment

"Minds are like parachutes - they only function when they are open." **Sir James Dewar**

Enhancing Wellbeing continued

Our goal is to encourage students to be internationally minded and therefore be inclusive of others, by respecting and valuing diversity and always trying to make a positive difference to those around them.

Proudly, our school was selected as a flagship school for the widely acclaimed '**Alannah and Madeline Foundation Buddy Bear**' initiative, an anti-bullying program that fosters a caring and empathetic mindset in students.

The Buddies Program supports both the Buddy Bear initiative as well as our own transition program. Children in their Foundation year are paired with a Year 5 student. Other pairings also occur across year levels. Within this program, older children support the younger students during regular Buddy sessions as well as create friendships in the schoolyard. To develop our Buddy Program we offer a 'Friendship Room', where students can attend during lunchtimes to play games and interact with others in a friendly and supportive environment.

Each year we celebrate 'Harmony Day' where we acknowledge the wonderful diversity we have in our school community. The students are encouraged to understand and practise positive behaviours which include acceptance, recognition, appreciation, empathy, respect and tolerance.

Caring for Each Other

"A leader is one who knows the way, goes the way, and shows the way." **John C. Maxwell**

Leading the Way

Leadership is more than a title - it is the ability to recognise an opportunity or challenge and seize it.

At Aspendale Gardens Primary School leadership begins in the Foundation year, where students have the opportunity to take on responsibilities within the classroom and to lead their peers in learning activities.

This develops and expands as the students progress through the school and into more formalised leadership positions. Year 6 students have the opportunity to fulfil one of many senior leadership roles, such as School Captains, House Captains, Sports, Visual Arts, Performing Arts, Environment, Library, Technology and Language Leaders.

Year 6 students are also involved in the Marine Ambassadors program, caring for our local marine environment and teaching younger students how they can help protect and sustain our environment. These leaders have a great impact on our school and undertake a range of initiatives throughout the school designed to inform, involve and educate their student peers about the importance of looking after our environment, particularly our waterways.

In 2019 we commenced a Peer Support Group program where students in Years 5 and 6 are trained as mediators to assist with sorting yard issues if they arise.

"It is the supreme art of the teacher to awaken joy in creative expression and knowledge. "

Albert Einstein

Inspiring Creativity

Performing Arts covers all elements of the Performing Arts curriculum which are Dance, Drama, Music and Media. This is enhanced by a comprehensive instrumental music teaching program which includes violin, drums, voice, keyboard and guitar lessons. The children are encouraged to join the school band and the various singing and choir groups on offer. We are entertained regularly at our school assemblies by student performances.

Students participate in a whole school performance every second year. This is a wonderful experience for the students as it provides the opportunity for them to perform on a professional stage in front of a very large audience. Class teams come together as one to make this event truly memorable.

Our specialist programs, in the creativity arena, are **Performing Arts** and **Visual Arts**.

Visual Arts caters for the artist in everyone. We enjoy the colourful art displays across the school which enriches and brightens our environment. The Art program is celebrated each year by our amazing **Art Expo** which showcases our students' talents. This is a wonderful school event which is enjoyed by the school community.

These **programs** are diverse and provide opportunities for students to explore their creativity within the PYP framework.

Enriching Performance

"The finest inheritance you can give to a child is to allow it to make its own way, completely on its own feet." **Isadora Duncan**

Fostering Independence

School camps are a vital part of our school program. These experiences provide a unique opportunity for students to build resilience and enjoy the outdoors whilst creating irreplaceable childhood memories. **Positive team building**, enhanced **socialisation** and **evolving independence** and **responsibility** are just a few of the key outcomes for camp participants.

Starting in Year 2, the students enjoy a sleepover at school. Students in Year 3 attend Mt Evelyn Recreation Camp during Term 4. The students enjoy many challenging and fun activities and for many students, this is their first two night experience away from home.

Year 4 students experience a two night trip to Camp Manyung on the Mornington Peninsula. This is a wonderful, challenging and exciting program, enjoyed by the students in a beautiful coastal environment.

Year 5 students attend a four night camp at Cave Hill Creek in Beaufort. On the way the students enjoy the wonderful teaching and learning program at Sovereign Hill in Ballarat, where they pan for gold and experience a classroom environment as it was in the gold rush days.

Enjoying their senior year at Aspendale Gardens Primary School, our Year 6 students travel to our nation's capital on a four night tour to Canberra. This is an excellent trip where the students visit some amazing venues such as Parliament House, the War Memorial and the Royal Mint to name a few. This is a rich opportunity for students to develop their knowledge of one of their units of inquiry that delves into government systems.

Students from Years 4 – 6 are also given the opportunity to be a part of our 3 day annual Snow Camp held on the Mount Buller ski slopes.

Our extensive camp program provides a range of opportunities for our students to develop **independence** and **leadership skills**. It is also a wonderful opportunity for the teachers and students to interact in an environment away from school.

Lifetime Memories

"Just play. Have fun. Enjoy the game." **Michael Jordan**

Getting Active

Our **Physical Education** program is a comprehensive, challenging and engaging educational program. The program covers all areas of Physical Education which ranges from ball handling skills to swimming. The skills learnt from the Foundation year are consolidated in the senior years where the students participate in a competitive interschool sports program.

We have a very vibrant House system with dedicated and talented House Leaders. Our Houses are named after Australian birds of prey that can be found in our local wetlands - Falcons, Kestrels, Kookaburras and Owls. Our House Leaders take responsibility for inspiring their teams during our cross county competition, the athletics sports and various round robin events held throughout the year.

Students enjoy the benefit of a, full sized indoor basketball court which is utilised to enhance our Physical Education and Sports programs.

Team Participation

"I believe absolutely in the importance and power of the shared table. In many cultures, eating together around a table is the centre of family life. It is the meeting place, where thoughts are shared, ideas challenged, news is exchanged and where the participants leave the table restored in many ways." **Stephanie Alexander**

Gardening Gourmet

Aspendale Garden Primary School's holistic curriculum ensures our students acquire skills that will serve them now and for years to come. Years 3 and 4 students participate in the Kitchen Garden Program. Our talented kitchen specialist and qualified garden specialist provide an outstanding cooking and gardening program that fits seamlessly with the PYP and our students love it!

Alternate weeks are spent either in the garden planting, maintaining and harvesting the fruits of their labour, or cooking cuisines from countries around the world whilst gaining insight into different cultures. Table etiquette, developing their palate and honing their dining conversational skills are also part of this brilliant program.

Menus are based on the seasonal vegetables grown in our organic garden.

Students from all year levels enjoy, and are encouraged to help or just spend time in our huge garden during lunch time. Feeding the chooks is a favourite for many of the students.

"If we teach today as we were taught yesterday, we rob out children of tomorrow." **John Dewey**

Embracing the Modern World

At Aspendale Gardens Primary School we are very proud of our extensive **Information and Communication Technologies (ICT)** program.

Our students today are digital natives and we believe preparing them for the digital world ahead is vital and is a responsibility we take very seriously.

We have a one-to-one iPad program for students from Years 4 to 6 and a school-supported iPad program in other year levels. All classrooms are equipped with interactive whiteboards or digital flat screens, desktop computers, laptops and other media equipment. Technologies are used across the entire curriculum to enhance student learning and prepare them for their life journey in a digital environment.

A variety of technological tools are used across all subject areas. In Physical Education, students film each other and analyse their movements in order to improve their technique. Programs such as 'Garage Band' are used in Performing Arts and instant access to the artworks from the Louvre in Paris is enjoyed in our Visual Arts classes via our unlimited, school-wide WIFI access. The students love having the world at their fingertips!

We are an approved e-Smart school. Schools with this accreditation have an holistic approach to cyber safety that aims to increase digital inclusion and develop a strong awareness of how we use technology safely and responsibly.

Extending Knowledge

Confucius: "The only time you should look down on someone is when you are helping them up."

Extending Language & Culture

Our rich LOTE program is complemented by our accreditation as a **Chinese International Education Foundation** school. We have two sister schools in China, Youfu West Street, in Nanjing and Yucai Primary, in Yangzhou. Every two years, we have an overseas trip for a group of senior students to visit our sister schools and we reciprocate their hospitality by hosting them at Aspendale Gardens Primary School. These international partnerships allow our students and staff to have access exciting learning opportunities that are absolutely life changing.

Through the power of technology we are able to maintain our relationships by 'Skyping' our sister schools. This is a very exciting part of our exchange program and one that promotes globalisation and cultural learning amongst our students.

We enjoy the expertise and experience from our intern from China every year who is billeted with our incredibly generous school community. Each intern brings authentic Chinese culture to our school, something the students find both fascinating and educational.

We understand the importance of embracing other cultures and languages and pride ourselves on our Mandarin program and Asia connections.

All students from Foundation to Year 6 participate in one hour of Mandarin instruction per week with our qualified Language Other Than English teachers. These lessons, where possible, connect to units of inquiry, while still ensuring language instruction is occurring. This approach recognises the importance of language not just being an isolated subject but integrated into the general classroom, conversing in Mandarin regarding everyday questions and observations.

"Thanks a zillion for what you are doing with your 'Have a Heart for Cambodia Art Show. Hugs to all your school kids from the kids at the orphanage." **Shirley (ODA)**

Engaging in the Community

To expand their horizons and teach our students about the importance of compassion, caring and giving, we have a yearly calendar full of community events both in a fundraising and non-fundraising capacity. Some of the charities our school currently supports include State School's Relief, Pink Ribbon Day and the Royal Children's Hospital.

As part of our **global responsibility charter**, we are very proud to support an orphanage in Cambodia. We hold a major fundraiser each year and an Art Auction to support the young people in the orphanage who are less fortunate than us. We also support the orphanage school by sending school supplies, clothing and toys.

The school **supports important projects in our community** such as the Marine Ambassadors Program on the Mornington Peninsula. We also participate in the Kingston Council's Big Green School's Conference, where our environment leaders share what they learn with our students. In addition, our brilliant garden specialist provides community workshops on how to create a successful and sustainable garden.

Our school leaders represent our school at the ANZAC Dawn Service on ANZAC day as well as attending our local RSL on Remembrance Day.

We have an extremely supportive School Council that assists with initiatives and ensures that we remain a happy, thriving and educationally brilliant school. Along with our parent-elected members, we have a Community Member position included on our School Council.

Considering Other

"The difference between a dream and a goal is a plan." **Anonymous**

We're in this Together

Aspendale Gardens Primary School recognises that we are in partnership with parents as we collectively provide a quality education for your children and understand that two-way communication is critical to ensuring the best outcomes for our students.

Parents are actively encouraged to contribute to our school community and provide their skills and networks to assist Aspendale Gardens Primary School in a range of areas such as classroom assistance, attending an excursion, helping with school events or becoming a classroom parent representative. Formal and informal communication streams are in place to provide flexibility for parents to liaise with the school effectively.

Parents form part of our School Council which provides an important link between school and the community. Parents can also be involved by joining a team such as fundraising and engaging in a variety of social activities.

Our school celebrates and showcases students' work throughout the year at events such as Art Shows, Literacy and Science Week activities, dance programs and school open days. These occasions, along with parent teacher meetings, provide parents with opportunities to remain informed about their child's progress.

Beyond the Curriculum

Aspendale Gardens Primary School has substantial grounds and excellent facilities. We have a fabulous modern, full sized basketball court and three playgrounds, a dedicated Foundation & Year 1 area, air-conditioned classrooms and an extensive ICT network. Our garden is absolutely amazing and is supported by our fully equipped kitchen which caters for whole-class cooking lessons.

Excellent staff from **Their Care** run our Before and After School Care program onsite. This is well attended and the students enjoy the supervised activities provided. **Team Kids** provide an excellent holiday care program.

We encourage students to ride, scoot or walk to school. Bikes are secured in the bike shed during the day.

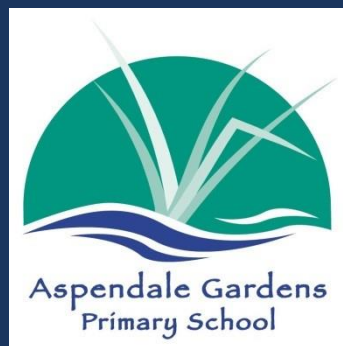

We have a school canteen which operates three days per week to provide healthy lunches for the students.
